Product Description

Advanced LB-100 Aesthetic Laser Machine Hair Removal Laser Machine With 8-Inch Touchscreen

Product Description:

One of the standout features of this machine is its large 15.6-inch screen, which allows for easy navigation and operation. The screen is also an 8-inch touchscreen, making it simple to adjust the settings and customize the treatment for each client.

The LB-100 IPL Laser Beauty Machine also offers a range of pulse widths, ranging from 0.02 to 0.99 seconds. This provides precise control over the treatment, ensuring that each client receives the right amount of energy for their specific skin type and concern.

Overall, the LB-100 IPL Laser Beauty Machine is a powerful and versatile tool for any beauty salon. With its range of treatment heads, large screen size, and precise pulse width control, it is capable of delivering effective and safe treatments for a range of skin concerns.

Features:

Product Name: Laser Beauty Machine

Spot Diameter: 6mm-14mm Adjustable

Style: Portable

Screen: 8-inch Touchscreen

Application: For Commercial

Output Power: 40W

Additional Keywords: Aesthetic Laser Machine, E Light Beauty Machine, Aesthetic Laser Machine

Technical Parameters:

This E Light Beauty Machine or Aesthetic Laser Machine is perfect for beauty salons, spas or even for home use. With its portable style and adjustable spot diameter of 6mm-14mm, it provides a frequency of 1-6Hz and an output power of 40W. It's ideal for commercial use, with a wavelength range of 430/480/530/560/640/690 ~ 1200nm and a pulse width of 0.02~0.99s. The machine also features a 15.6 inch screen size.

Applications:

For home use, the IPL Laser Beauty Machine is an ideal choice for those who want to improve the appearance of their skin and hair without the expense and inconvenience of regular salon visits. With its adjustable frequency and energy density settings, this beauty machine can effectively target a variety of skin and hair concerns, including fine lines, wrinkles, dark spots, and unwanted hair. Its compact size and simple operation make it easy to use at home, and its affordable price point makes it accessible to a wide range of consumers.

For professional use, the IPL Laser Beauty Machine is a valuable tool for estheticians, dermatologists, and other beauty professionals. With its multiple laser bar options and broad wavelength range, this machine can be customized to meet the specific needs of individual clients. Its high energy density and adjustable pulse width allow for precise targeting of problem areas, and its fast repetition rate of 1-6Hz ensures efficient and effective treatments. Whether you're performing hair removal, skin rejuvenation, or other beauty treatments, this machine delivers consistent and reliable results.

Some specific applications and scenarios where the IPL Laser Beauty Machine can be used include:

Treating fine lines and wrinkles on the face and neck

Reducing the appearance of dark spots and pigmentation on the skin

Removing unwanted hair on the legs, arms, underarms, and bikini area

Improving the texture and tone of the skin on the face and body

Treating acne and other skin blemishes

Providing anti-aging treatments to mature clients

Performing full-body hair removal for athletes, swimmers, and other clients

Overall, the IPL Laser Beauty Machine is a powerful and versatile tool for anyone looking to enhance their beauty routine or provide professional beauty treatments. With its advanced features and customizable settings, this machine delivers exceptional results for a wide range of skin and hair concerns.

Customization:

Our Laser Beauty Machine (Model: LB-100) comes with a range of customization services to cater to your specific needs. The following product attributes are available:

Treatment Heads: 5 Pieces

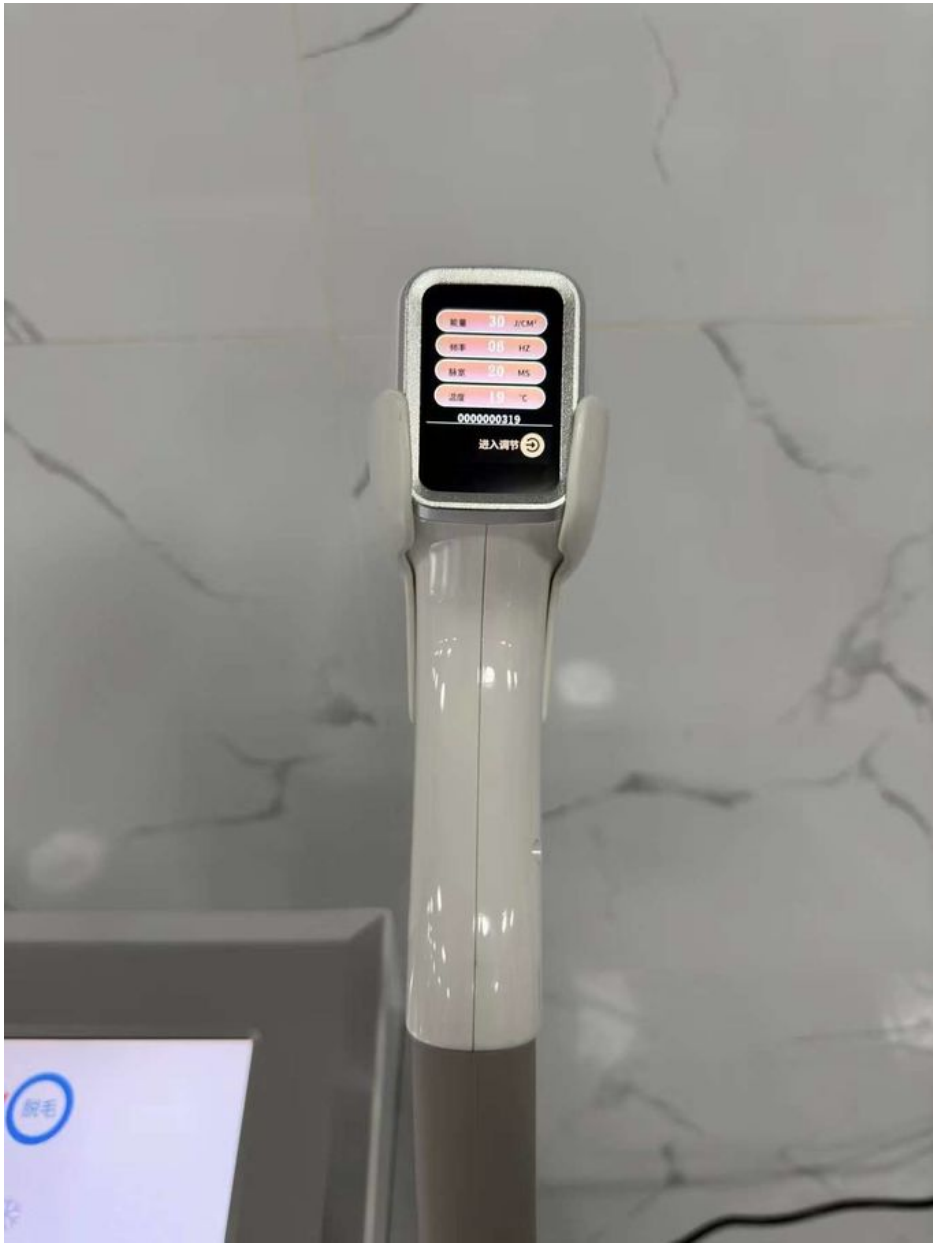

Spot Diameter: 6mm-14mm Adjustable

Laser Bar Number: 3*755nm; 4*808nm; 3*1064nm
